## Easy On-PC Spirometer for PC - USB

The Easy on-PC is an ultrasonic spirometer that connects directly into a PC or laptop via USB for real-time spirometry diagnostics. It comes complete with diagnostic spirometry software which can be installed on multiple computers without adding any additional licensing costs.

The software interface is intuitive, clear and user friendly with easy to follow workflows. It can be fully integrated into EMIS and SystemOne patient record systems making it the perfect choice of spirometer for use in a primary care setting.

**Still £1,295.00 \*Limited Stock**
